PROJECTS

- **Colaboratorio Carpintero** colaboratoriocarpintero.com
Live business website for a Guadalajara carpentry workshop, built and deployed to a custom domain. Responsive design with full SEO optimization (meta tags, Open Graph, geo-targeting), developed using an AI-assisted workflow (Claude) alongside hand-written code.
- **Marea People Partners** mareapeoplepartners.com.mx
Live corporate website for a real consulting business, full ownership from concept to production deployment. Responsive front-end (React, HTML, CSS, JavaScript).
- **Fiat90** fiat90-2026.netlify.app
Multi-page web app for a 90-day spiritual program, installable on mobile (PWA) and actively used by a real community. Features a live countdown, daily content, habit-tracking checklists, a sign-up form and Spotify integration.
- **Calaverita Generator** funny-calaverita-generator.netlify.app
React app that generates traditional Mexican "calaveritas literarias". Showcases component logic, state handling and creative product thinking.

PROFESSIONAL EXPERIENCE

- Co-founder** 2025-Present
Marea People Partners
 - Co-founded an HR consulting firm and designed and developed its website end-to-end, owning the full product from concept to deployment.
- Human Resources Associate** 2023 - 2025
Tricolor Auto Group, LLC
 - Managed HR operations across the full employee lifecycle, partnering cross-functionally with managers to deliver people-centered solutions.
 - Ensured compliance and process consistency, applying the detail-oriented, systematic mindset central to development work.
- People Experience Manager** 2021 - 2023
Rapido Solutions Group
 - Led cross-functional teams and end-to-end projects, planning, execution and budgeting, focused on employee experience and culture.
 - Collaborated with stakeholders to design and streamline processes, applying user-centered thinking to real needs.
- Associate TA Operations Specialist** 2019 - 2021
EPAM Systems
 - Coordinated recruitment and scheduling across multiple time zones for a global software-engineering company, with direct exposure to how distributed tech teams and remote workflows operate.
